Administration**

New England Region
Office of the Regional Administrator

12 New England Executive Park
Burlington, MA 01803-5299

April 25, 2008

You are invited to participate in an important upcoming meeting of the Boston Logan Airport Noise Study (BLANS) on Friday, May 30, 2008, from 10:00-11:30 a.m., at the Volpe Center, Kendall Square, Cambridge, Massachusetts. FAA, Massport, and the Logan Airport Community Advisory Committee (CAC) are engaged in this comprehensive study to determine viable means to reduce noise from aircraft operations at, to, and from Boston Logan International Airport. Enclosed is a map that includes all of the communities located within the study area.

The purpose of this meeting is to provide federal, state, and local elected representatives of the study area with:

- An update on the project.
- An opportunity to comment on the noise abatement measures proposed to be analyzed.
- An opportunity to identify any additional noise abatement measures to be examined.

For additional information about this study and to review the noise abatement measures proposed by the CAC, please visit the project's website at www.bostonoverflightnoisestudy.com. We appreciate your consideration in this matter and look forward to your participation in this meeting. If you have questions or need additional information from the FAA, please contact Barbara Travers-Wright, our New England Region Congressional Liaison, at (781) 238-7025.

Please R.s.v.p. to Ms. Mary McLaughlin as to your attendance by Friday, May 23, 2008. She may be reached by telephone at 781-238-7024 or by e-mail at Mary.McLaughlin@faa.gov.

Sincerely,

Amy L. Corbett
Regional Administrator
